

## EPISCOPALIANS IN CONVOCAION HERE

St. John's Church Is Scene of Important Gathering of Prominent Divines.

The two-day convocation services of the Episcopal churches of Arizona will convene this morning at 10 o'clock, at St. John's Church in this city. The services will open with Communion, followed by an address by Bishop Atwood of Phoenix. Lunch will be served at the noon hour. The delegates will listen to an address of welcome by Secretary Joseph H. Gray, of the Warren District Commercial Club. The afternoon session will open at 2 o'clock. At 4:30 will occur a small confirmation exercise. A reception at the new Rectory in Tombstone Canyon will be the evening feature. Business routine will commence at 10 o'clock Thursday, with election of officers and other details.

Rev. John W. Suter of Massachusetts, a divine of national prominence, will speak in the evening, also Dean Scarlett and Archbishop Jenkins of Phoenix. The latter will talk on the mission work carried on by the Episcopal Church in Arizona, illustrating his remarks with stereoscopic slides. Other prominent Episcopal clergymen who will attend are Revs. White of Winslow, Boone of Williams, Chin of Flagstaff, Bonine and Dixon of Tucson. On Friday, the delegates plan to make an auto trip to Tombstone where they will view the original Episcopal Church of Arizona.

## SILVER WEDDING IS OCCASION OF HAPPY TRIBUTE BY GUESTS

Captain Hodgson, Mine Superintendent of Copper Queen, and Wife Are Delightfully Honored; Silver Tea Set Presented.

The residence of Captain J. P. Hodgson, mine superintendent of the Copper Queen, on Howell Ave., was the scene Monday evening of a delightful surprise party, in which the Captain and his wife were most pleasantly remembered in honor of their Silver Wedding anniversary. Those giving the party were the foremen, shift bosses and heads of departments of the Copper Queen mine.

In behalf of the gathering, Frank Sinclair presented Captain and Mrs. Hodgson with a beautiful silver tea set, his remarks being as follows:

"It has fallen to my lot this evening to say a few words about this occasion. We can hardly realize that it is almost three years since Captain and Mrs. Hodgson came to Bisbee and, if I should review some of the things that were due in a large measure to Captain Hodgson's efforts and leadership, as for example, our underground work, changes in our methods of mining, and in our community such as improvement in the Y. M. C. A. playground and the new high school, I would be repeating facts that are only too well known. We, who represent only a few of your many friends in Bisbee, have come to celebrate your Silver Wedding anniversary with you and we present this set to you and Mrs. Hodgson in token of our appreciation, esteem and deepest friendship."

To this speech Captain Hodgson responded in a spirit of appreciation of the kindly spirit in which the men had cooperated with them and the people of Bisbee. He assured the guests that, could he be of any service to them, he was only too willing to help them.

Another happy occasion was an extremely happy one, as attending the popularity of Captain Hodgson and his wife.

## AMATEURS PRESENT MIRTHFUL MEDLEY OF BOISTEROUS FUN

Record Attendance of Theatre-goers Is Assured for Thursday Evening's Opening Presentation of "Singbad, the Sailor."

Only one more day remains before the amateur theatrical artists of Bisbee will make their initial bow in the presentation of the dashing musical extravaganza "Singbad, the Sailor." The last touches will be made tonight and under the critical eye of Director Ten Broeck the performers will receive their final instructions. On Thursday evening the curtain at the Orpheum theatre will rise on the first production of this elaboration of fun and folly which has been such a tremendous success on the stages of the East and Middle West.

It will be a revelation to the audience when the stage is revealed, for the first time, as the scenery is entirely new and no one would, for a moment, recognize the old familiar setting of the Orpheum stage. With the bright and brilliant costumes, and the novel stage surroundings, the opening appearance of the company should be a magnificent introduction of the long awaited riot of revelry.

While there is undoubtedly a great demand for the seats for the opening performance, yet no one should be misled by an erroneous impression which has, apparently, been created in a more or less degree throughout the district. Somehow or other, the impression went abroad that the seats for the opening show had all been sold out. Such, however, is not the case. There are still good seats to be had. It would appear, nevertheless, a fair tip to suggest to local theatregoers to get their seats as early as possible, today.

Director Ten Broeck is surely having the wonderful success with the work of training the great company of amateurs, while he has had the good fortune of being surrounded by young people of more than ordinary talent. He deserves a lot of credit. He has injected a life, enthusiasm and snap into the whole affair which would have been impossible, had he not possessed the skill of the true artist coupled with an innate love for the work.

Seldom has a show of such pretentious ambition been presented on any stage in this section of the Southwest. It is an effort which, when carried to its ultimate triumph, should bring pride to every citizen who takes interest in the accomplishments of the youth of Bisbee. Not only will the show be well worth seeing from every viewpoint of the lover of rollicking and wholesome musical comedy, but there will be the added interest resulting from the prospect in the cast of the ambitious and talented young people of Bisbee.

Interpretation of melody and mirth, grotesque situations, delightfully witty repartee, added all the time by the peculiar genius of the author of the production, will result in one splendid evening of care-free, clean, happy enjoyment.

Undoubtedly the Orpheum will be thronged, for everywhere in the business district yesterday, the coming show was heard discussed. Everybody wants to see it and it seems to be a mighty good decision on the part of the promoters to have the show presented for a second time, on the evening of Tuesday, April 27.

Those who have seen the production in cities of the East declare that the presentation will be a revelation to Bisbee theatregoers who have never seen just such a musical comedy as "Singbad, the Sailor." In it are combined every feature that has contributed to the great successes of similar efforts of the contemporary stage.

The author of the piece has had only one object in view, that being to entertain. He has not evinced any intention in the attempt to inject some hypocritical "lesson." He has, however, along to the highest standard of care-free, clean laughter-provoking comedy, never, for a moment, descending to the slightest suggestion of the subtle or campy.

Some of the artists who will appear tomorrow night, are well known on account of their former successful efforts in amateur productions. Others will make their first appearance before a Bisbee audience. There is a remarkable array of unusual talent, some of the performers being possessed of ability which will probably bring them considerable distinction, later in their lives.

Bisbee lovers of the best in theatricals should appreciate the efforts made by the promoters, director and members of the company engaged in the presentation of "Singbad, the Sailor" and the Orpheum undoubtedly will be packed to the doors, when the curtain rises Thursday evening.

## MORE POWER NEEDED BY INDUSTRIES OF NORTHERN ARIZONA

Large Addition Is to Be Erected to Arizona Power Company's Plant in Yavapai County; Demand Is Great.

PRESCOTT, April 20.—It has been said that "electricity is life." Whether this is true in a physical sense or no, it is certainly true in a commercial sense, when the "juice" is used to make the wheels of industry go round. This has local application in the case of the Arizona Power company, the only company selling electric power in this county, and its sale of power—the amount of voltage used by consumers—is a good index of the industrial condition of the county. That the power company finds that its stock in trade—electric power—is all sold out, and that it will have to procure more power in order to supply its present and prospective customers, is a sign that industries requiring power are on the increase. In order to meet this increased demand for power, a quarter of a million dollars, approximately, will be expended by the company within the next twelve months in adding to its plant at Fossil creek; in installing an additional unit by picking up the water at a point above the present plant, and dropping the water to the point where the strength of its fall is converted into power which can be controlled a hundred miles away.

By the additions to be made to the Fossil creek power plant, the company will have an additional 2000 horse power to distribute among the mines, or for lighting towns and villages. Already, it is stated, considerable of this additional power has been contracted for by future consumers. The enlarged plant of the United Verde Copper company will call for an increase, and a transmission line is now being built to the De Soto mine. There are only two of the places where additional power will be marketed. Several smaller mining companies are contemplating the use of electric power when it can be had.

R. S. Mason, chief engineer of the Arizona Power company, arrived in Prescott a few days ago and will make his headquarters here during construction of the new work. At present he is at Fossil creek, arranging details of the work, in conjunction with J. C. Palmer, engineer of the company, and John Gray, general foreman. Preliminary work has been started by the placing of men at work upon a wagon road connecting the intake of the new unit with the present plant. As soon as some repairs are made to the old road, the work will go ahead rapidly. There will be an immense amount of hauling to be done before everything in the way of dams and machinery is upon the ground, and it is probable that motor trucks will be used for transportation purposes. Of steel flume alone, there will be nearly four miles and about 3000 feet of pressure pipe. It will also be necessary to construct a diversion dam, and bore an intake tunnel 440 feet in length.

WANT QUICK COURT ACTION ON ALIENS

Attorney General Jones Will Ask Washington to Advance Hearing on Docket.

PHOENIX, April 20.—On the ground that public necessity demands an early decision in the case, motion to advance the eighty per cent law case on the calendar of the supreme court of the United States will be filed this week by Attorney General Wiley R. Jones.

Unless the case is advanced on the calendar, it may not come up for hearing for two years," said the attorney general yesterday evening. "Another case, involving the employment of alien labor on public works in New York City, which was set just ahead of the Arizona case, has been advanced on the calendar, and will be heard next October. Of course it is impossible to say when the Arizona case will come up, even if placed ahead of its regular position on the calendar."

The action was brought by Max Black, a chef in a Bisbee restaurant to restrain his employer, Traux from discharging him under the provisions of the eighty per cent law adopted at the November election. The case came up for argument in San Francisco before Judge Saxton and Van Fleet of the United States district court and Judge Morrow of the United States circuit court, who decided that the statute was repugnant to the constitution of the United States and declared it void.

Vigorous protests against the law which prohibited the employment of more than 20 per cent alien labor by any employer hiring five men or more were filed with the state department last fall by the British and Italian embassies. Employers of foreign labor in this state were active in opposing the new law.

## FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn.—"I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do."—Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## CIRCUS FAMINE MAY BE FELT IN BISBEE

Quarantine Regulations May Prevent the Usual Shows From Coming to Town.

What are the children of the Warren District and the young grown-ups going to do?

A circus famine threatens the southwest.

Unless the drastic quarantine regulations now being enforced are raised in the next few months, small boys in the four states of Arizona, New Mexico, Texas and Colorado will have to drag through a summer without the thrill of seeing for weeks on gaudy posters, or getting up at 4 in the morning to go down and watch the circus unfold. Even less chance will they have to hold their breath at the sensational exploits of the sawdust ring. For all circuses, worthy of the name, are barred from the states mentioned, and until the ban is raised, must seek other territory.

One of the first real catastrophes from the juvenile viewpoint occurred last week when, for the first time in history the Sells-Floto and Buffalo Bill circuses passed up the southwest entirely and jumped from Denver to California, where it opened the spring season at San Bernardino. Under ordinary conditions the big circuses, with its hundreds of marvelous attractions, would have passed before going to the Pacific coast.

One ray of hope alone remains. Those circuses which were in Colorado, New Mexico, Texas and Arizona when the quarantine regulations were put into effect may, if they so desire, tour the four states, the bars separating the four commonwealths having been lowered on April 15.

## HOPED TO "LAND OLD DEAR," DIDN'T; NOW SUES HIM FOR \$500,000

Mrs. Ida M. McNabb, Milwaukee boarding house keeper and former Lipew Michigan charitable association field agent, is suing J. S. Kinney, multi-millionaire iron mine owner of Stambaugh, Mich., for \$500,000 for breach of promise. The suit is being heard in Washington, D. C. Kinney's present home. In one of Mrs. McNabb's letters to her housekeeper she said, referring to Kinney, that she "hoped to land the old dear."

## FRAZEE EXTRADITION MATTER WILL GO TO GOVERNOR FOR FINAL

Wm. B. Cleary, Representing Defendant, and Sheriff Jackson and Deputy Sigman, Wyoming, Leave for Phoenix on the Case

Judge George W. Totman, in court yesterday, held William Smith in custody of the sheriff until April 27, at which time it is expected a return will have been made from the extradition proceedings, which are now before Governor Hunt. Smith was arrested some days ago by Det. Foley, charged with being a fugitive from justice. With the arrival here of Carl Jackson, sheriff of Albany county, Wyoming, the original complaint was dismissed and Smith was arrested on another warrant.

It is alleged that Smith's right name is William Frazee. He has been a resident of Cochise county for the past four years approximately, during which time he has borne an excellent reputation for honesty, sobriety and peacefulness. The information and complaint from the state of Wyoming, charged the defendant with having stolen twenty head of horses in Albany county. The horses, it is alleged, were worth \$2000. The theft of the horses, according to the complaint, took place November 29, 1910.

Subsequently Frazee was arrested and later released on bail of \$1500. This bail was "jumped" and nothing more was heard of Frazee until the local officers arrested Smith.

Carl Jackson, sheriff of Albany county, and J. W. Sigman, represent the state of Wyoming, and left last night for Phoenix to place the extradition case before Governor Hunt. W. B. Cleary and Fred Sutter of Bisbee represent Smith, and Cleary, with the Wyoming officers, left last evening for Phoenix to appear in behalf of his client.

## ILLNESS IS FATAL TO MRS. H. H. COLLEY

Wife of Assistant Superintendent of Copper Queen Smelter Dies at Douglas.

The death, Saturday afternoon at Douglas, of Mrs. H. H. Colley, wife of H. H. Colley, assistant superintendent of the Copper Queen smelter, was learned with great regret in Bisbee, where the Colleys had a great many friends. Mrs. Colley died after a three weeks' illness at her home in the Copper Queen smelter addition. The body was sent Monday to New London, Conn., her former home, where interment will be made. The husband and H. T. Hamilton accompanied the remains. Mrs. Colley had lived in Douglas since her marriage several years ago.

## GENERAL RUSSKI RETIES.

PETROGRAD, April 20.—The retirement of General Russki, one of Russia's most distinguished military leaders, is announced. The general has been suffering for some time from cancer, and only continued so long in his command through a high patriotic sense of duty.

General Russki made his mark early in the war by his magnificent conduct of the Galician campaign, taking Lemberg and defeating the combined Austro-German armies. Latterly, he has been in charge of the Russian forces around Przemysl and is held largely responsible for the Russian successes there. The emperor accepted Russki's resignation with an official receipt expressing his regret and appointing Russki a member of the Council of Empire.

The state of Russki's health is said to be very precarious, and it is not expected that he will be able to leave his bed again.

## MANY CALL AT OFFICE.

LONDON, April 20.—The average number of callers at the British war office daily is now over 1,200. Most of them are on business, but there is a considerable number of sightseers, who express a wish to be shown around or desire Lord Kitchener's autograph for their collection. This class of callers generally receive scant courtesy at the present time. Perhaps the most difficult class to deal with are the people with strange inventions. A persistent woman visitor who sought a personal interview with Lord Kitchener wished to argue that every soldier in the trenches should have a life-line tied to his back, so that if wounded or buried he could be hoisted back to safety.

## COPPER SULPHATE LOW.

PARIS, April 20.—The supply of sulphate of copper of which there is an enormous consumption in the winegrowing districts of France is running low. In order to prevent the cornering of the stock on hand and to rescind in favor of France its prohibition of the exportation of this product from the kingdom.

## CHAPLIN IS STRONG AT LOWELL THEATRE

There is literally a riot of fun when Charles Chaplin takes "A Night Out," which is the title role of his second Essanay two-reel comedy. Thousands of phyllophy enthusiasts, as well as exhibitors, have written letters of the great success of the play. Exhibitors who have run this comedy declare that it is the funniest they have ever seen, and that their spectators were convulsed with laughter. The Warren District public will have the extreme pleasure of viewing Chaplin in this, his greatest success up to date, Saturday afternoon and night. On account of the great crowds who always come out to see Chaplin the Lowell will give a special matinee Saturday afternoon. Tonight the Lowell is putting on a double feature program with two excellent comedies.

## AUSTRALIA BUSY

SYDNEY, Australia, April 20.—Notwithstanding the war, work on Australia's new capital, Canberra, is being pushed forward rapidly. A site has been chosen for the construction of a dam to lock the water from the Queanbeyan River in order to force a continuous stream into the Molonglo, which flows through the federal capital territory. The cost of the dam will be about \$500,000.

The electric power plant, which will generate sufficient power for lighting and industrial purposes in the city, is to cost \$200,000. It is now approaching completion.

The planting of trees which are to beautify the streets and avenues of the new city, has been begun. The so-called "Federal Capital Territory" all of which is to be held by the Australian government and only leased to occupants, comprises an area of 900 square miles.

The Boston 70-cent gas bill has been ordered to a third reading in the House without debate, as was the bill providing for the removal of the elevated structure in Charlestown and the substitution of a subway.

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulfur. Your hair is your charm. It is a show of your face. When it takes on a gray, streaked and looks dry, waxy and straggly, just an application of two of Sage and Sulphur restores its appearance a hundred fold.

Don't bother to prepare the tonic; you can get from any drug store a 5-cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. It can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and itching hair.

Everybody uses "Wyeth's" Sage and Sulphur because it softens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustreous and abundant. 721
